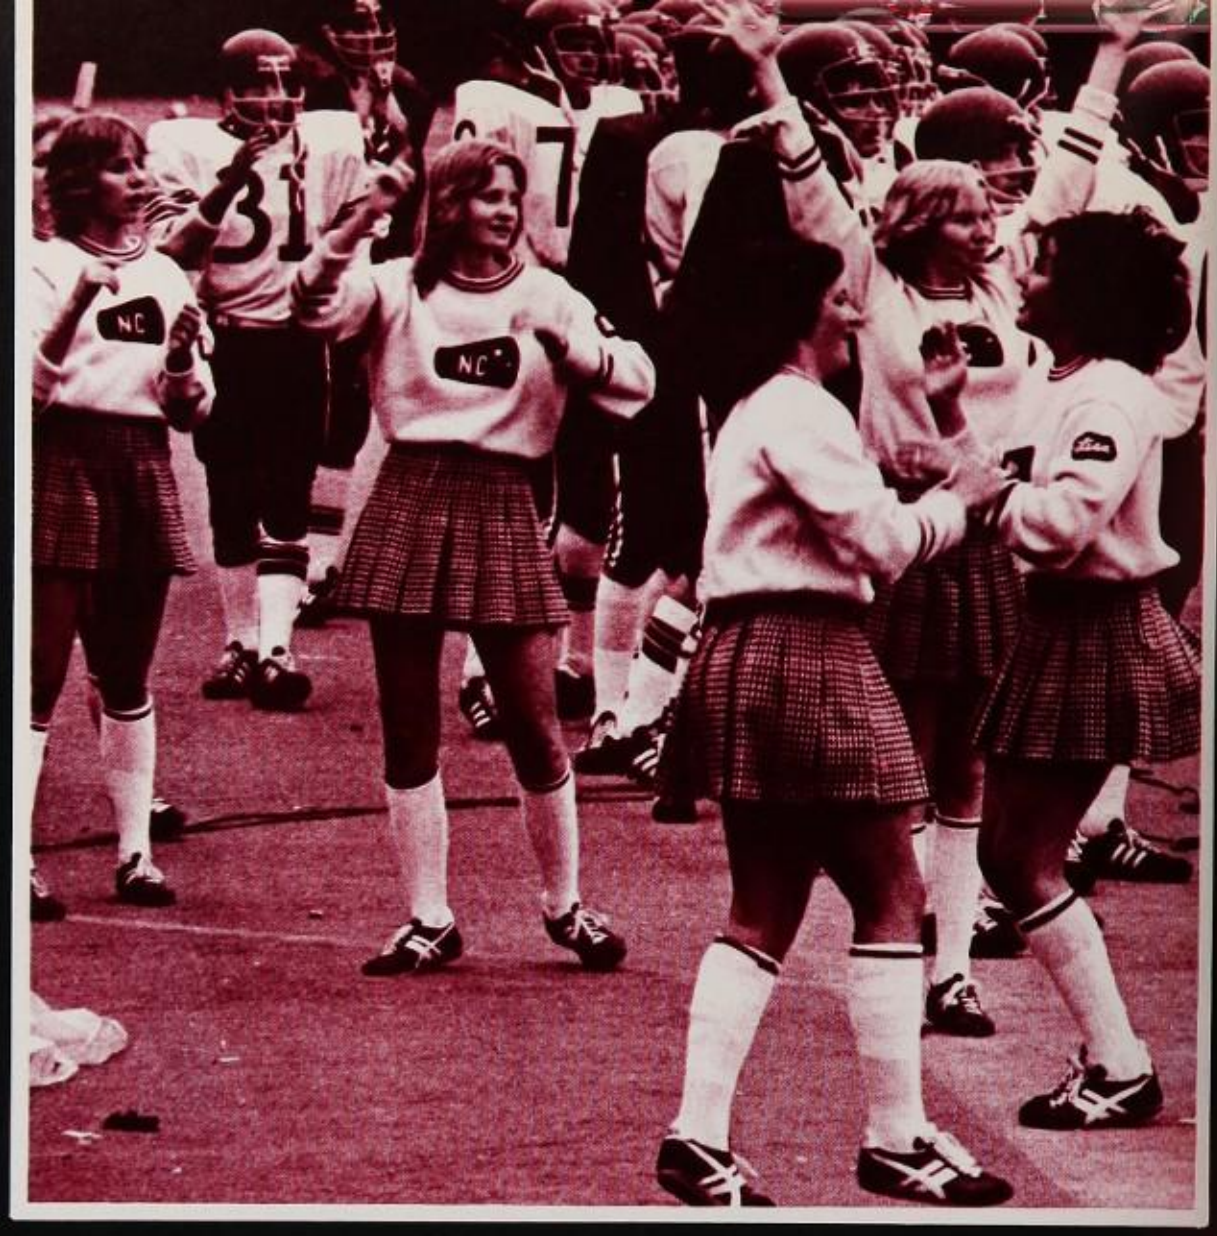
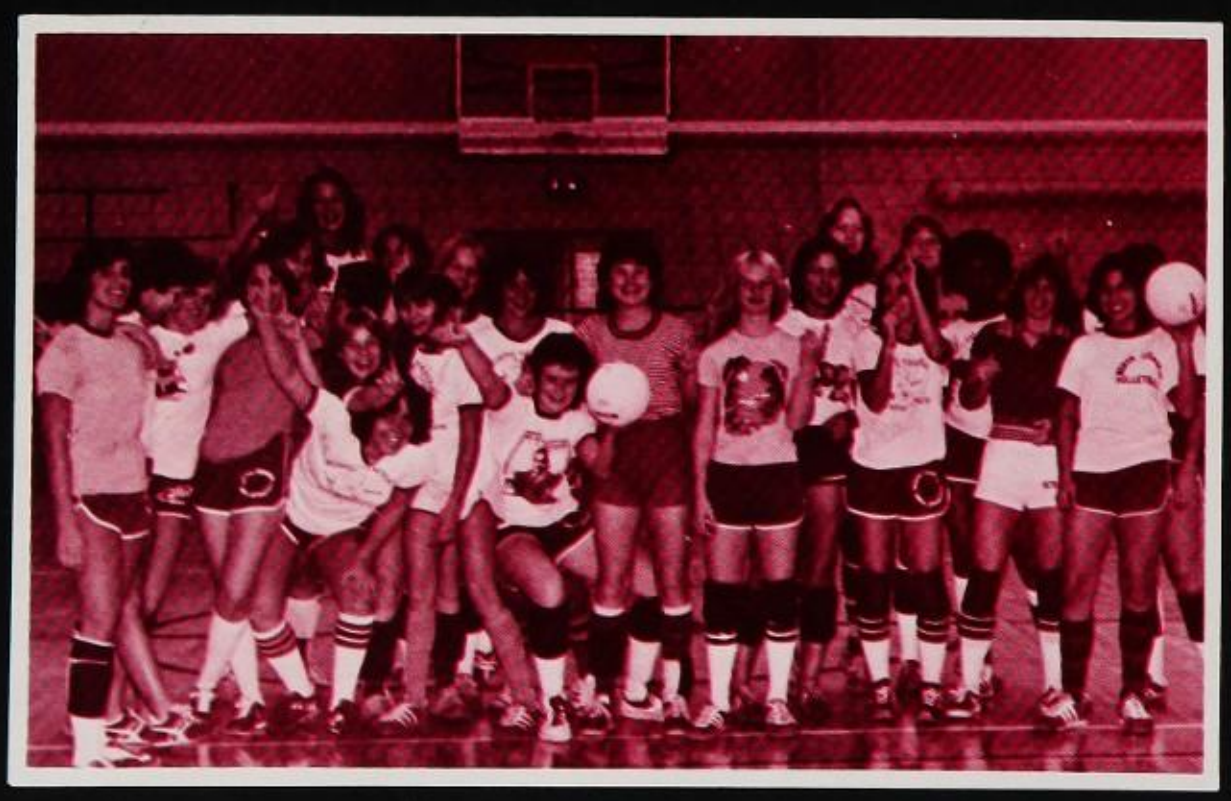
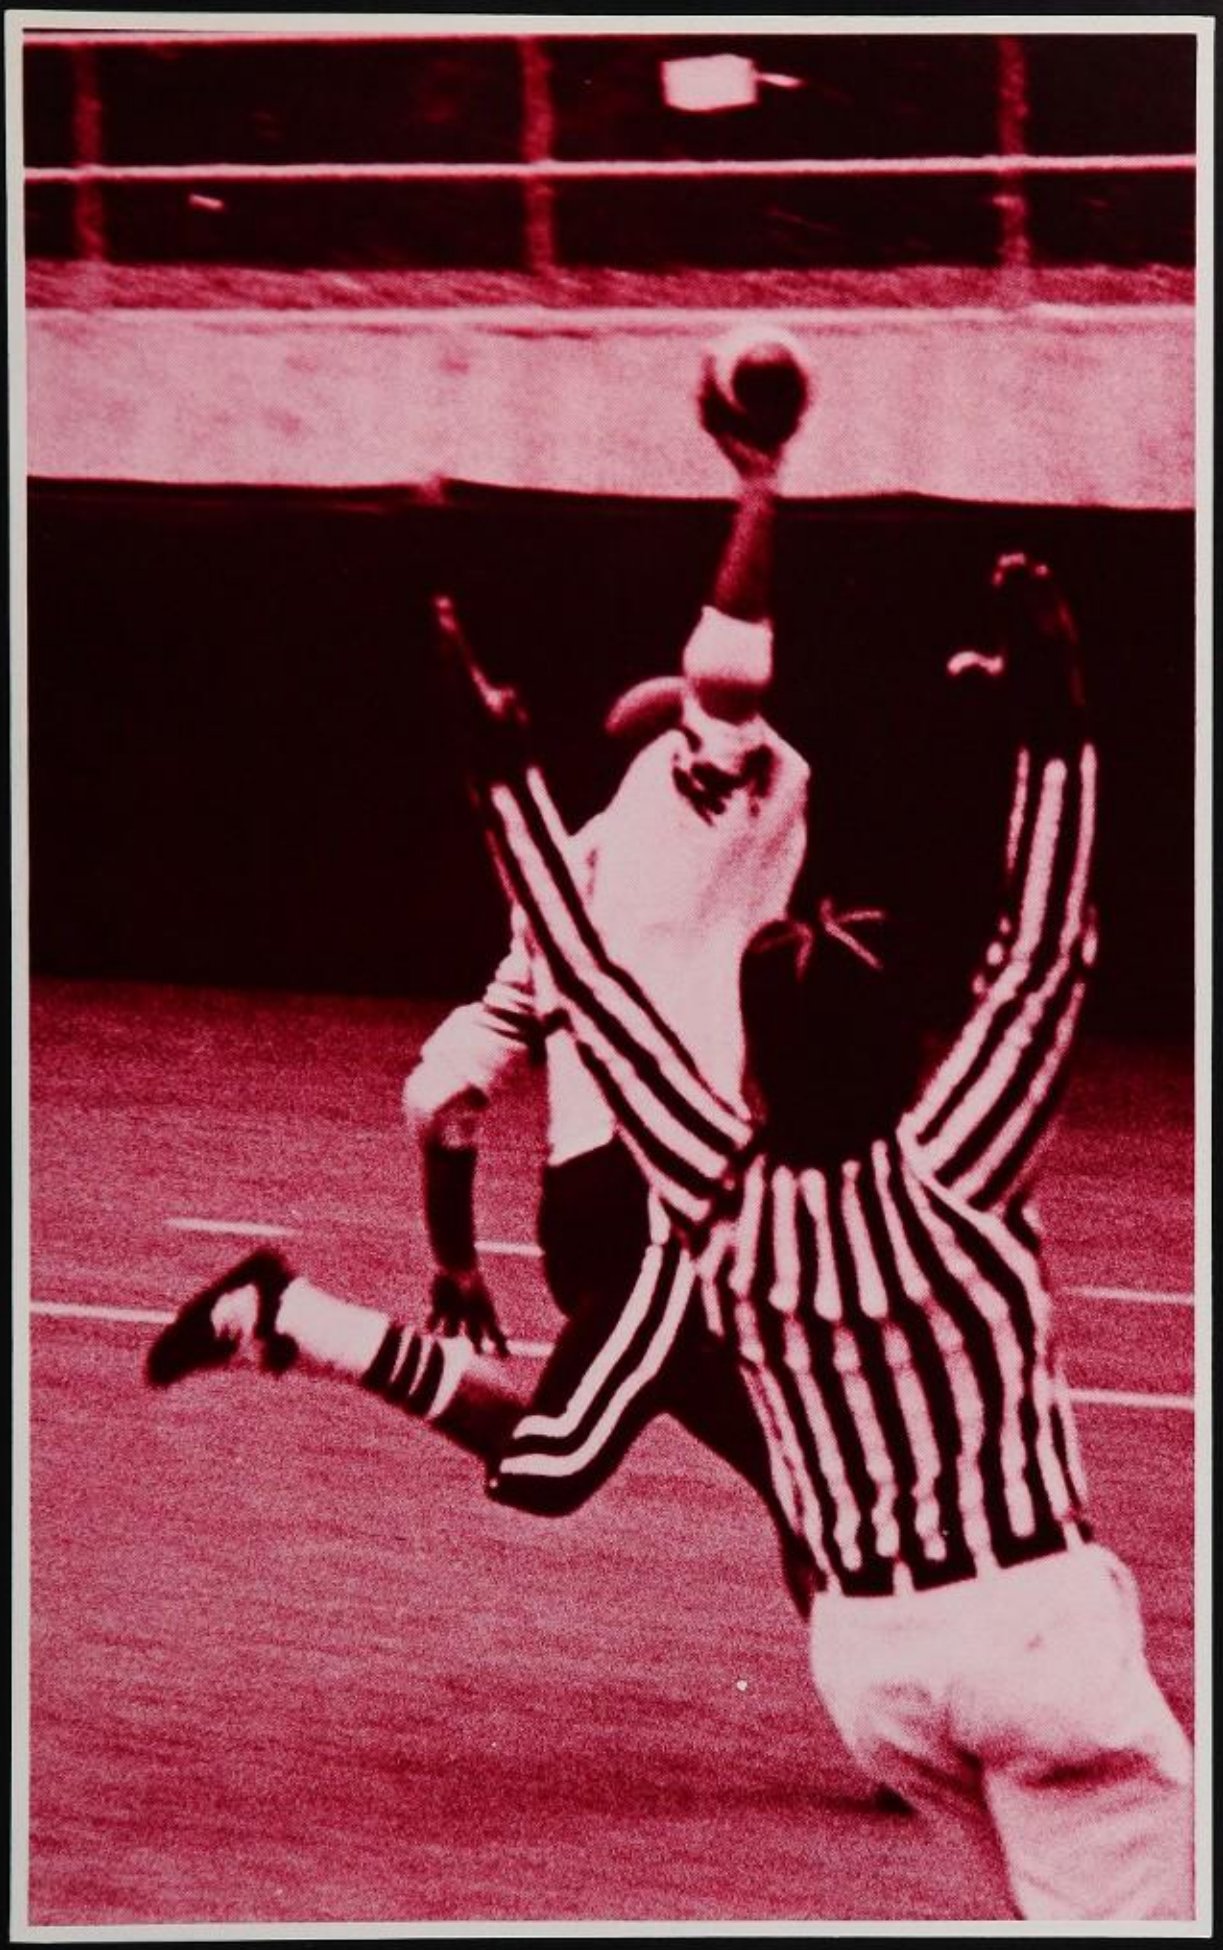
We've Been Together Since Way Back When.
Sometimes I Never Wanna See You Again.
But I Want You to Know,
After All These Years . . .

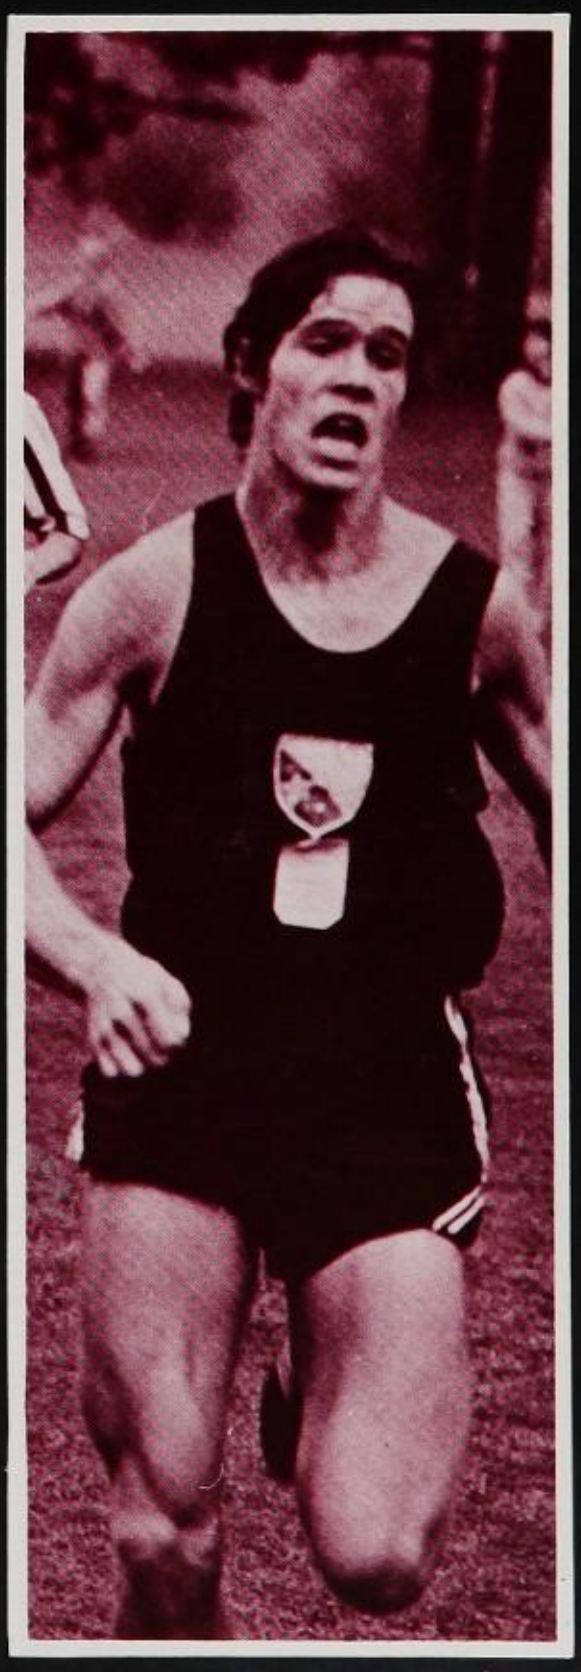
We're Still the One!





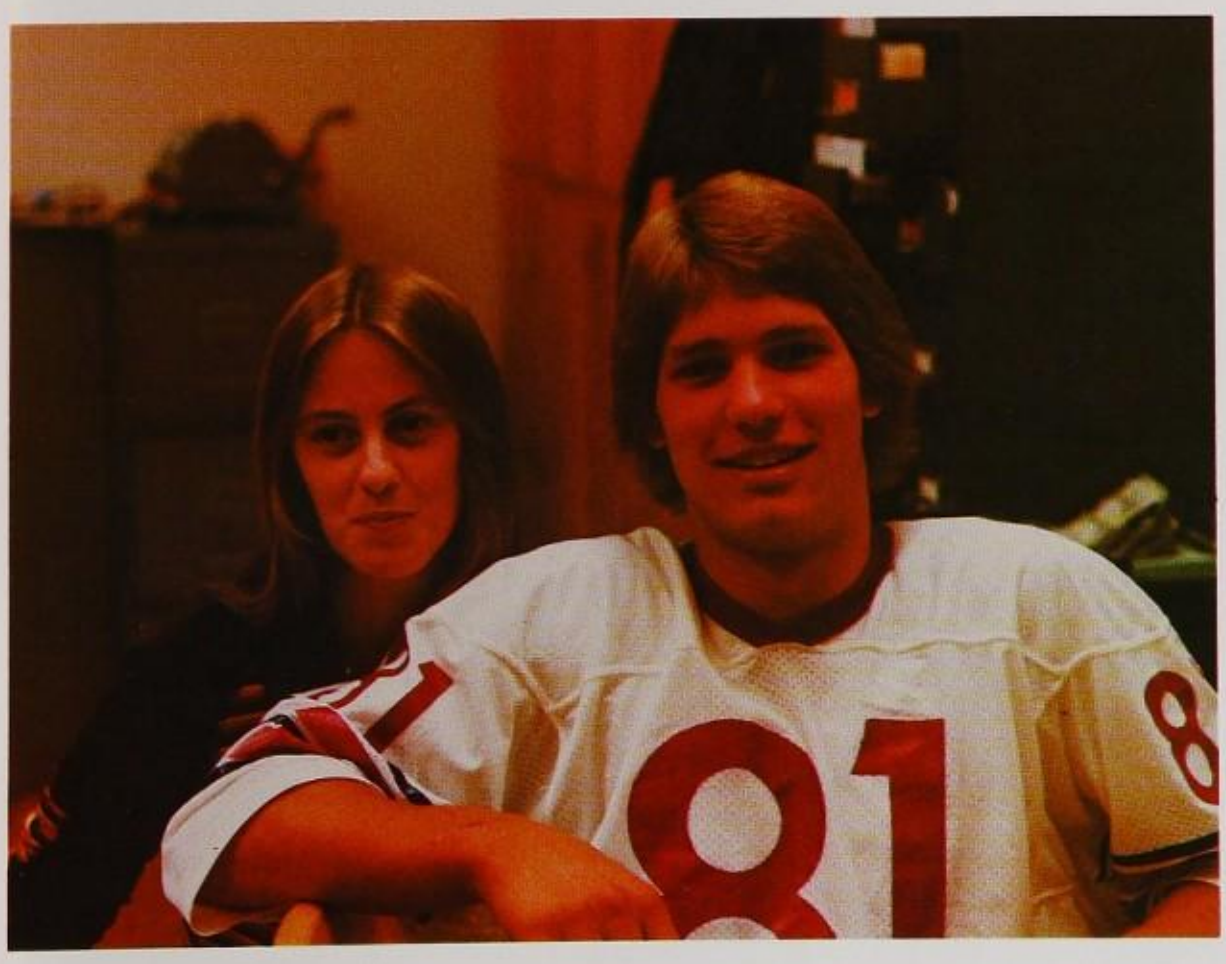


Still
the One
That Makes
Me Strong



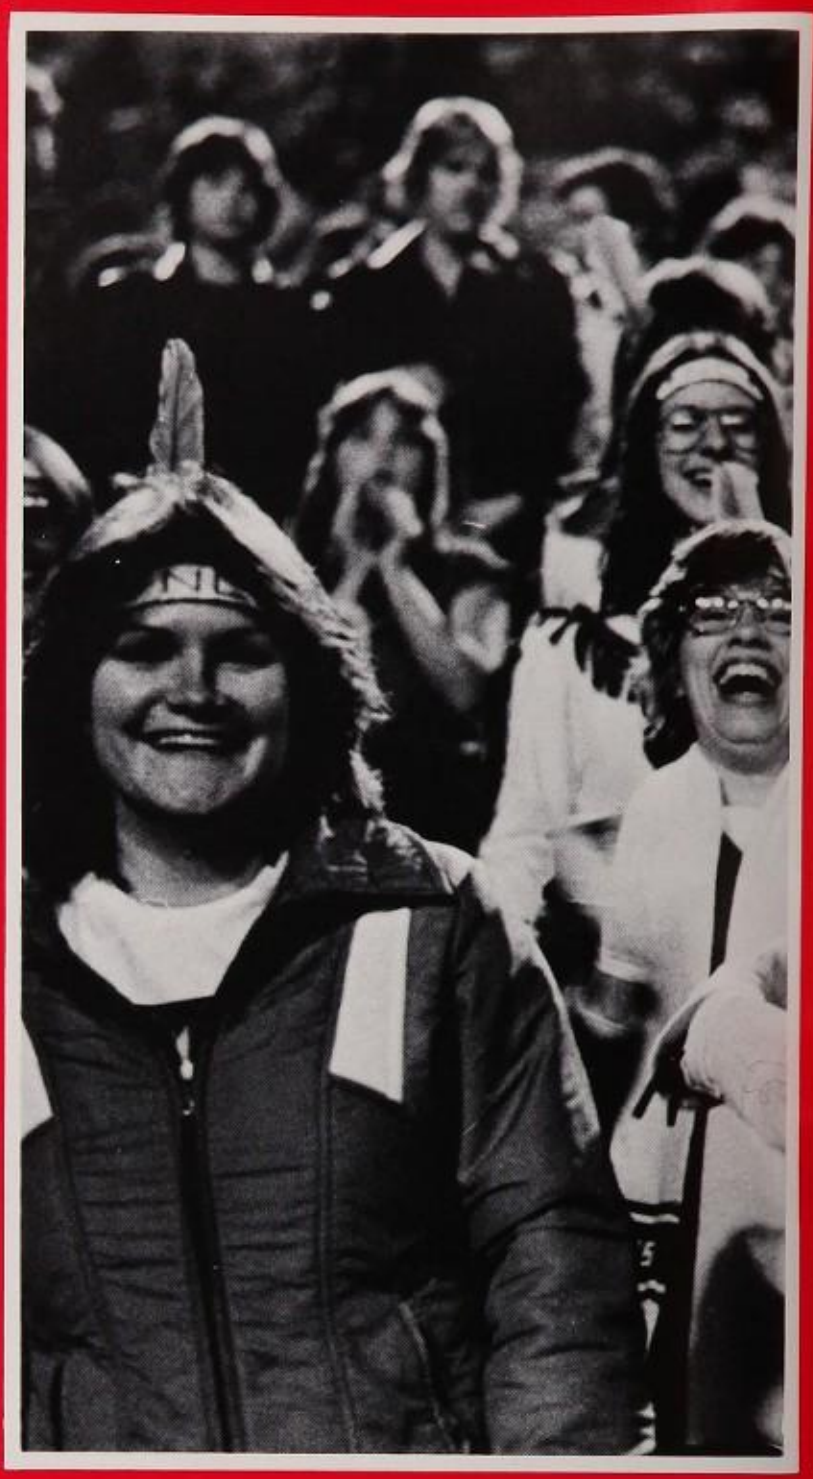
Still the One I Wanna Take Along

Friends
I Will
Remember You,
Think of You
Pray for You,
and When
Another Day
Is Through,
I'll Still
Be Friends
With You.

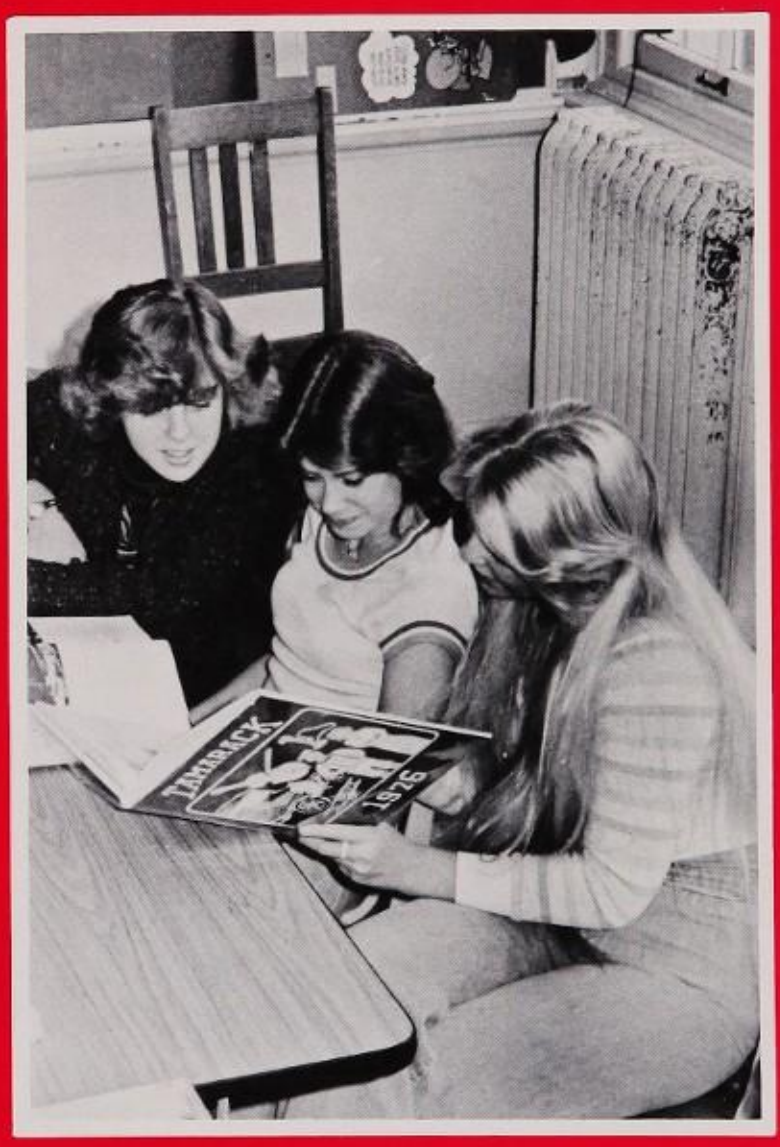


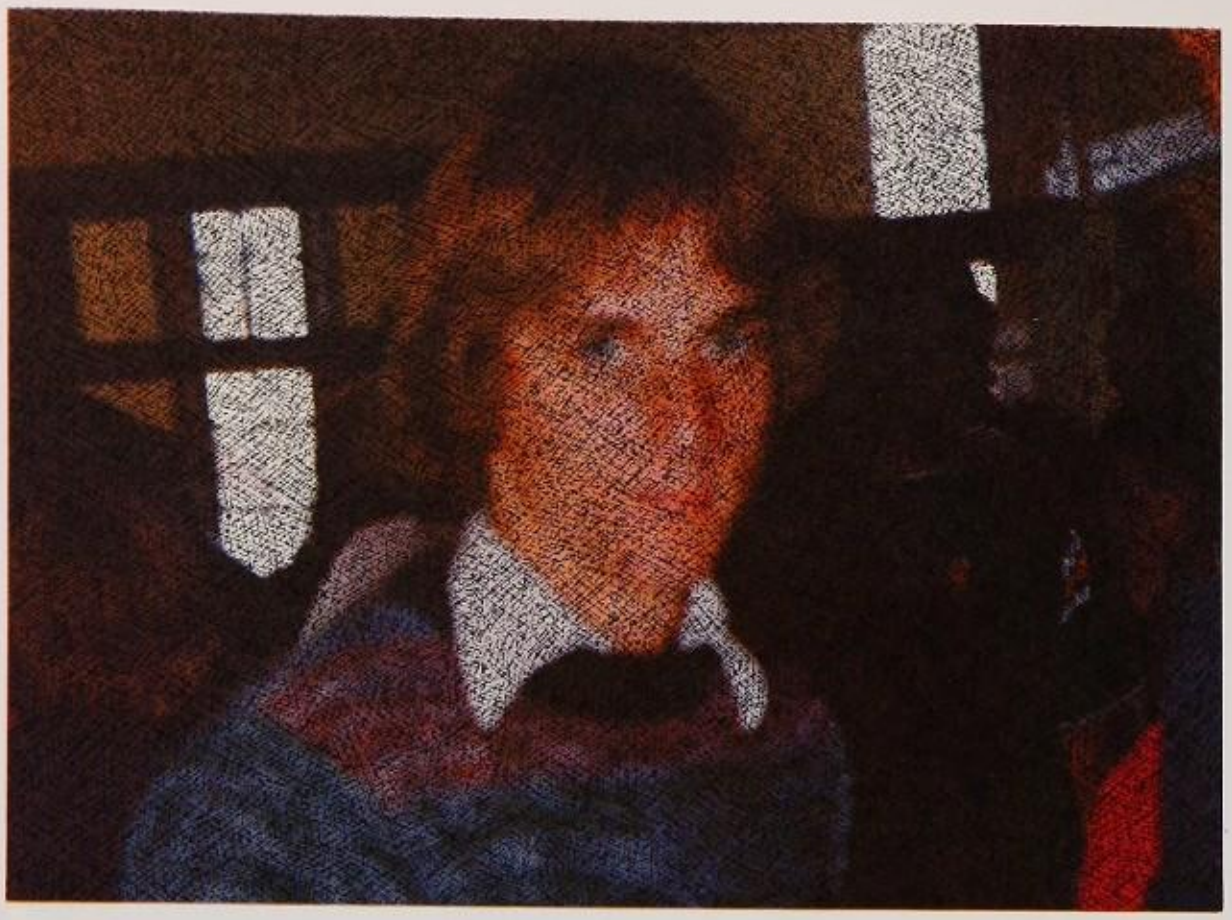
Still the One That I Love to Love

Still the One That Makes Me Laugh

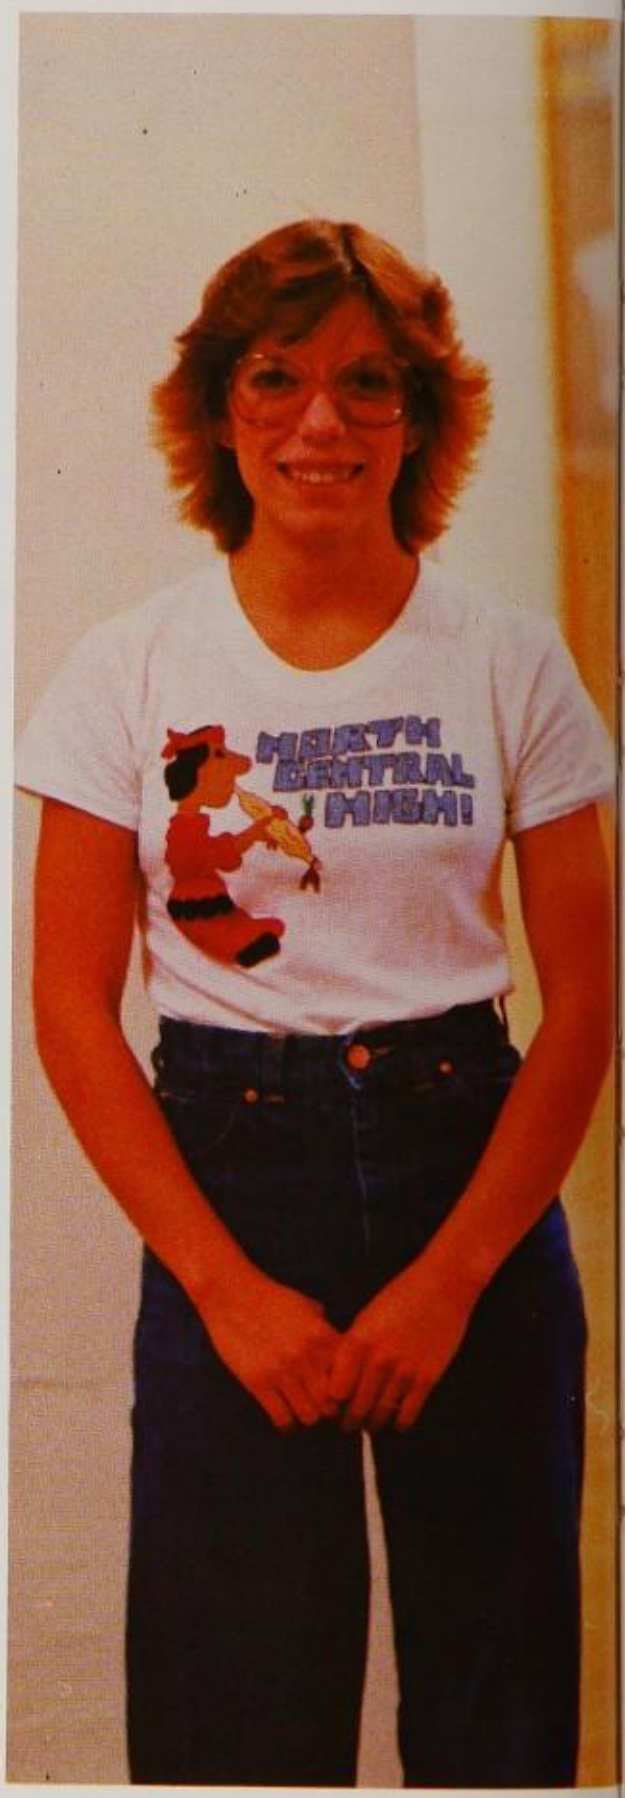


Still the One Yes, My Better Half

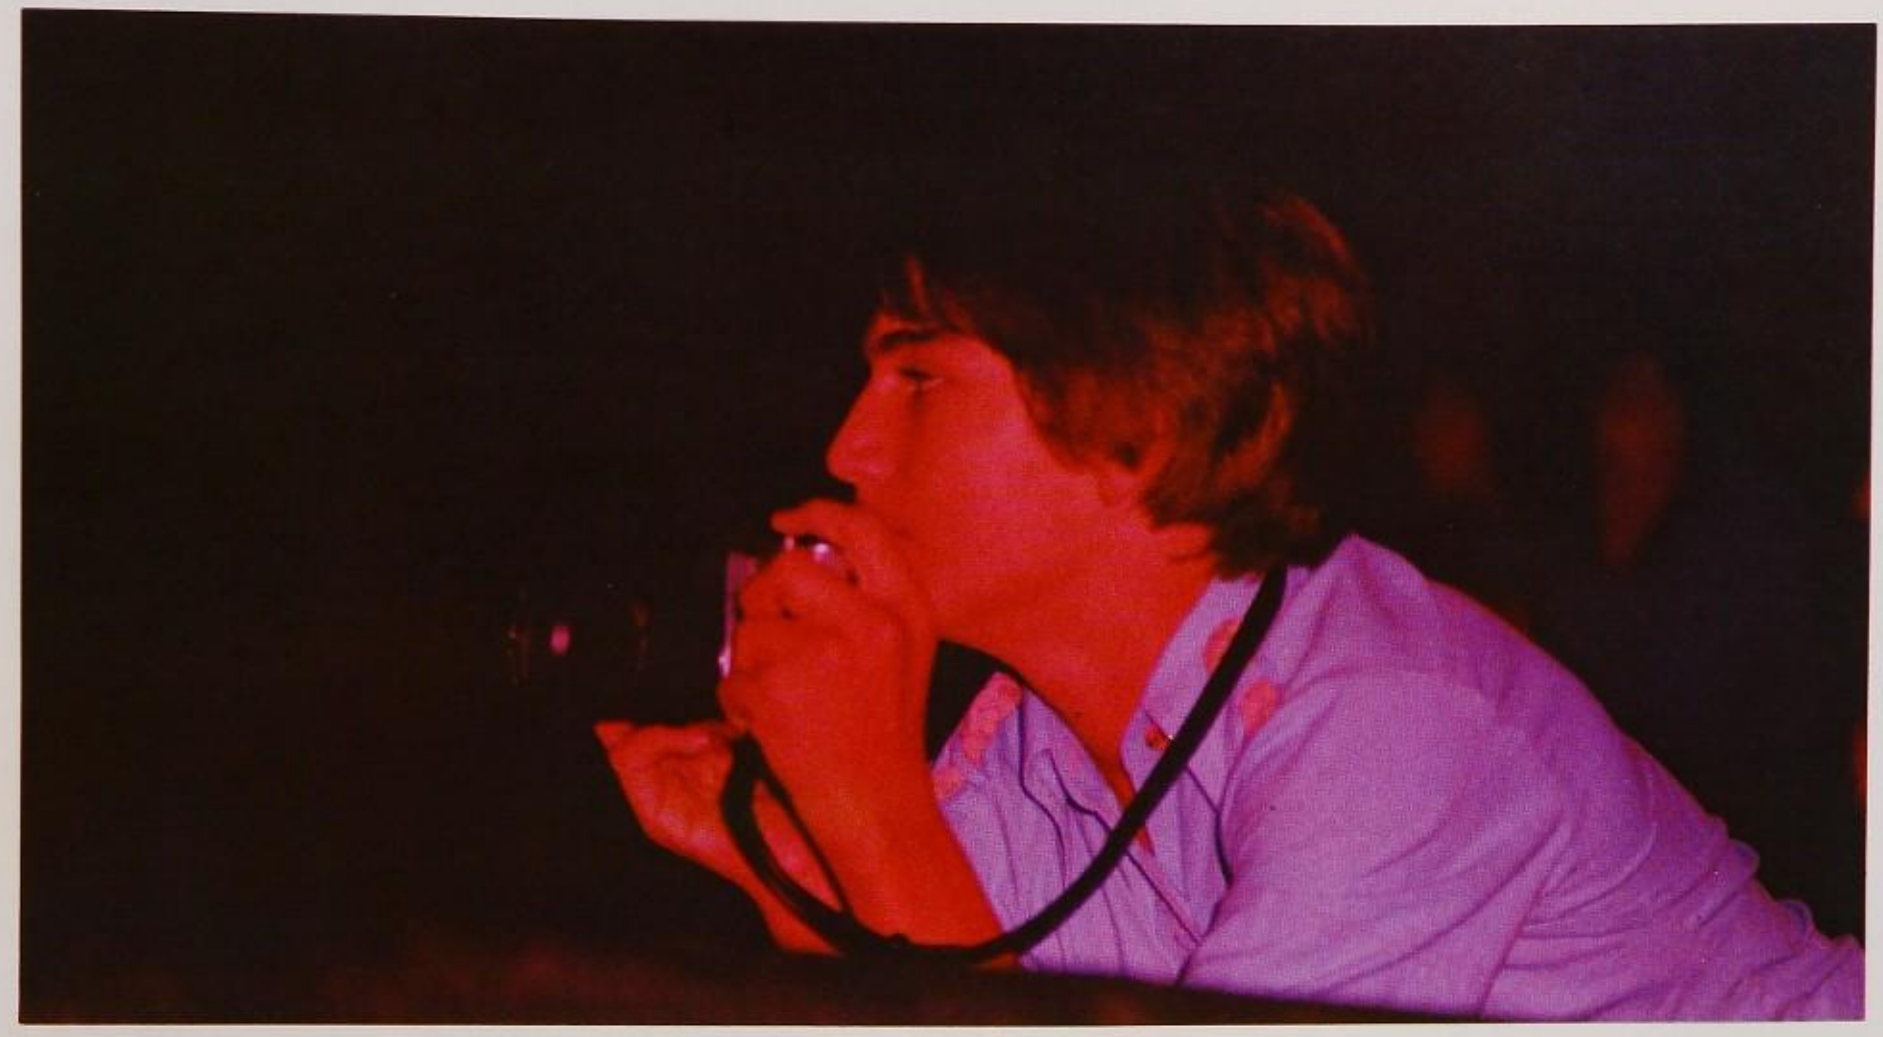




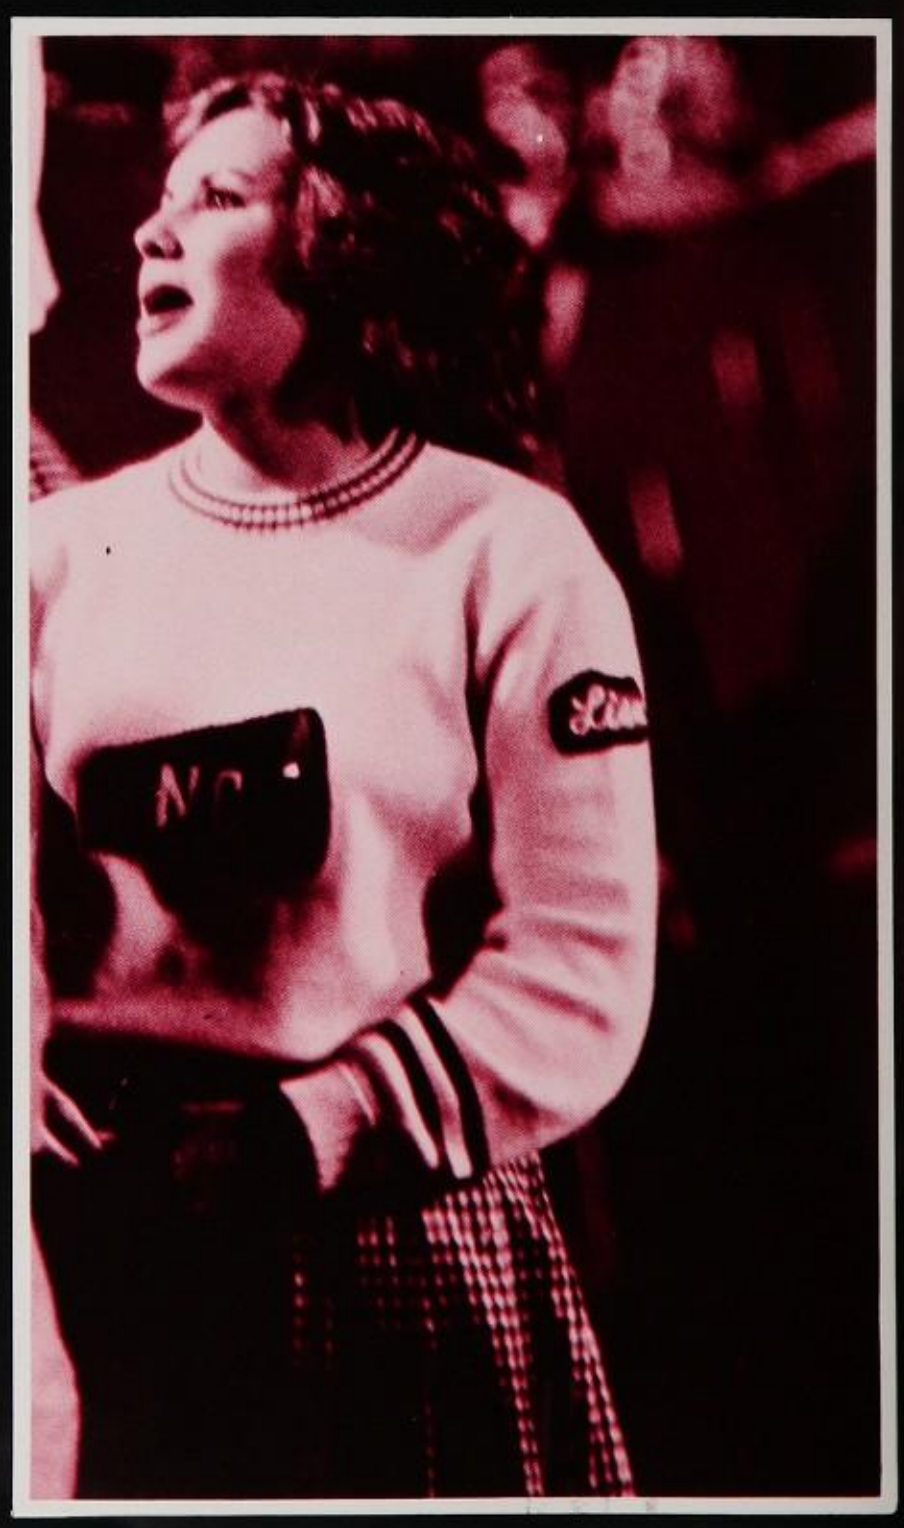
I Looked at Your Face Everyday



But I Never Saw It Till I Went Away



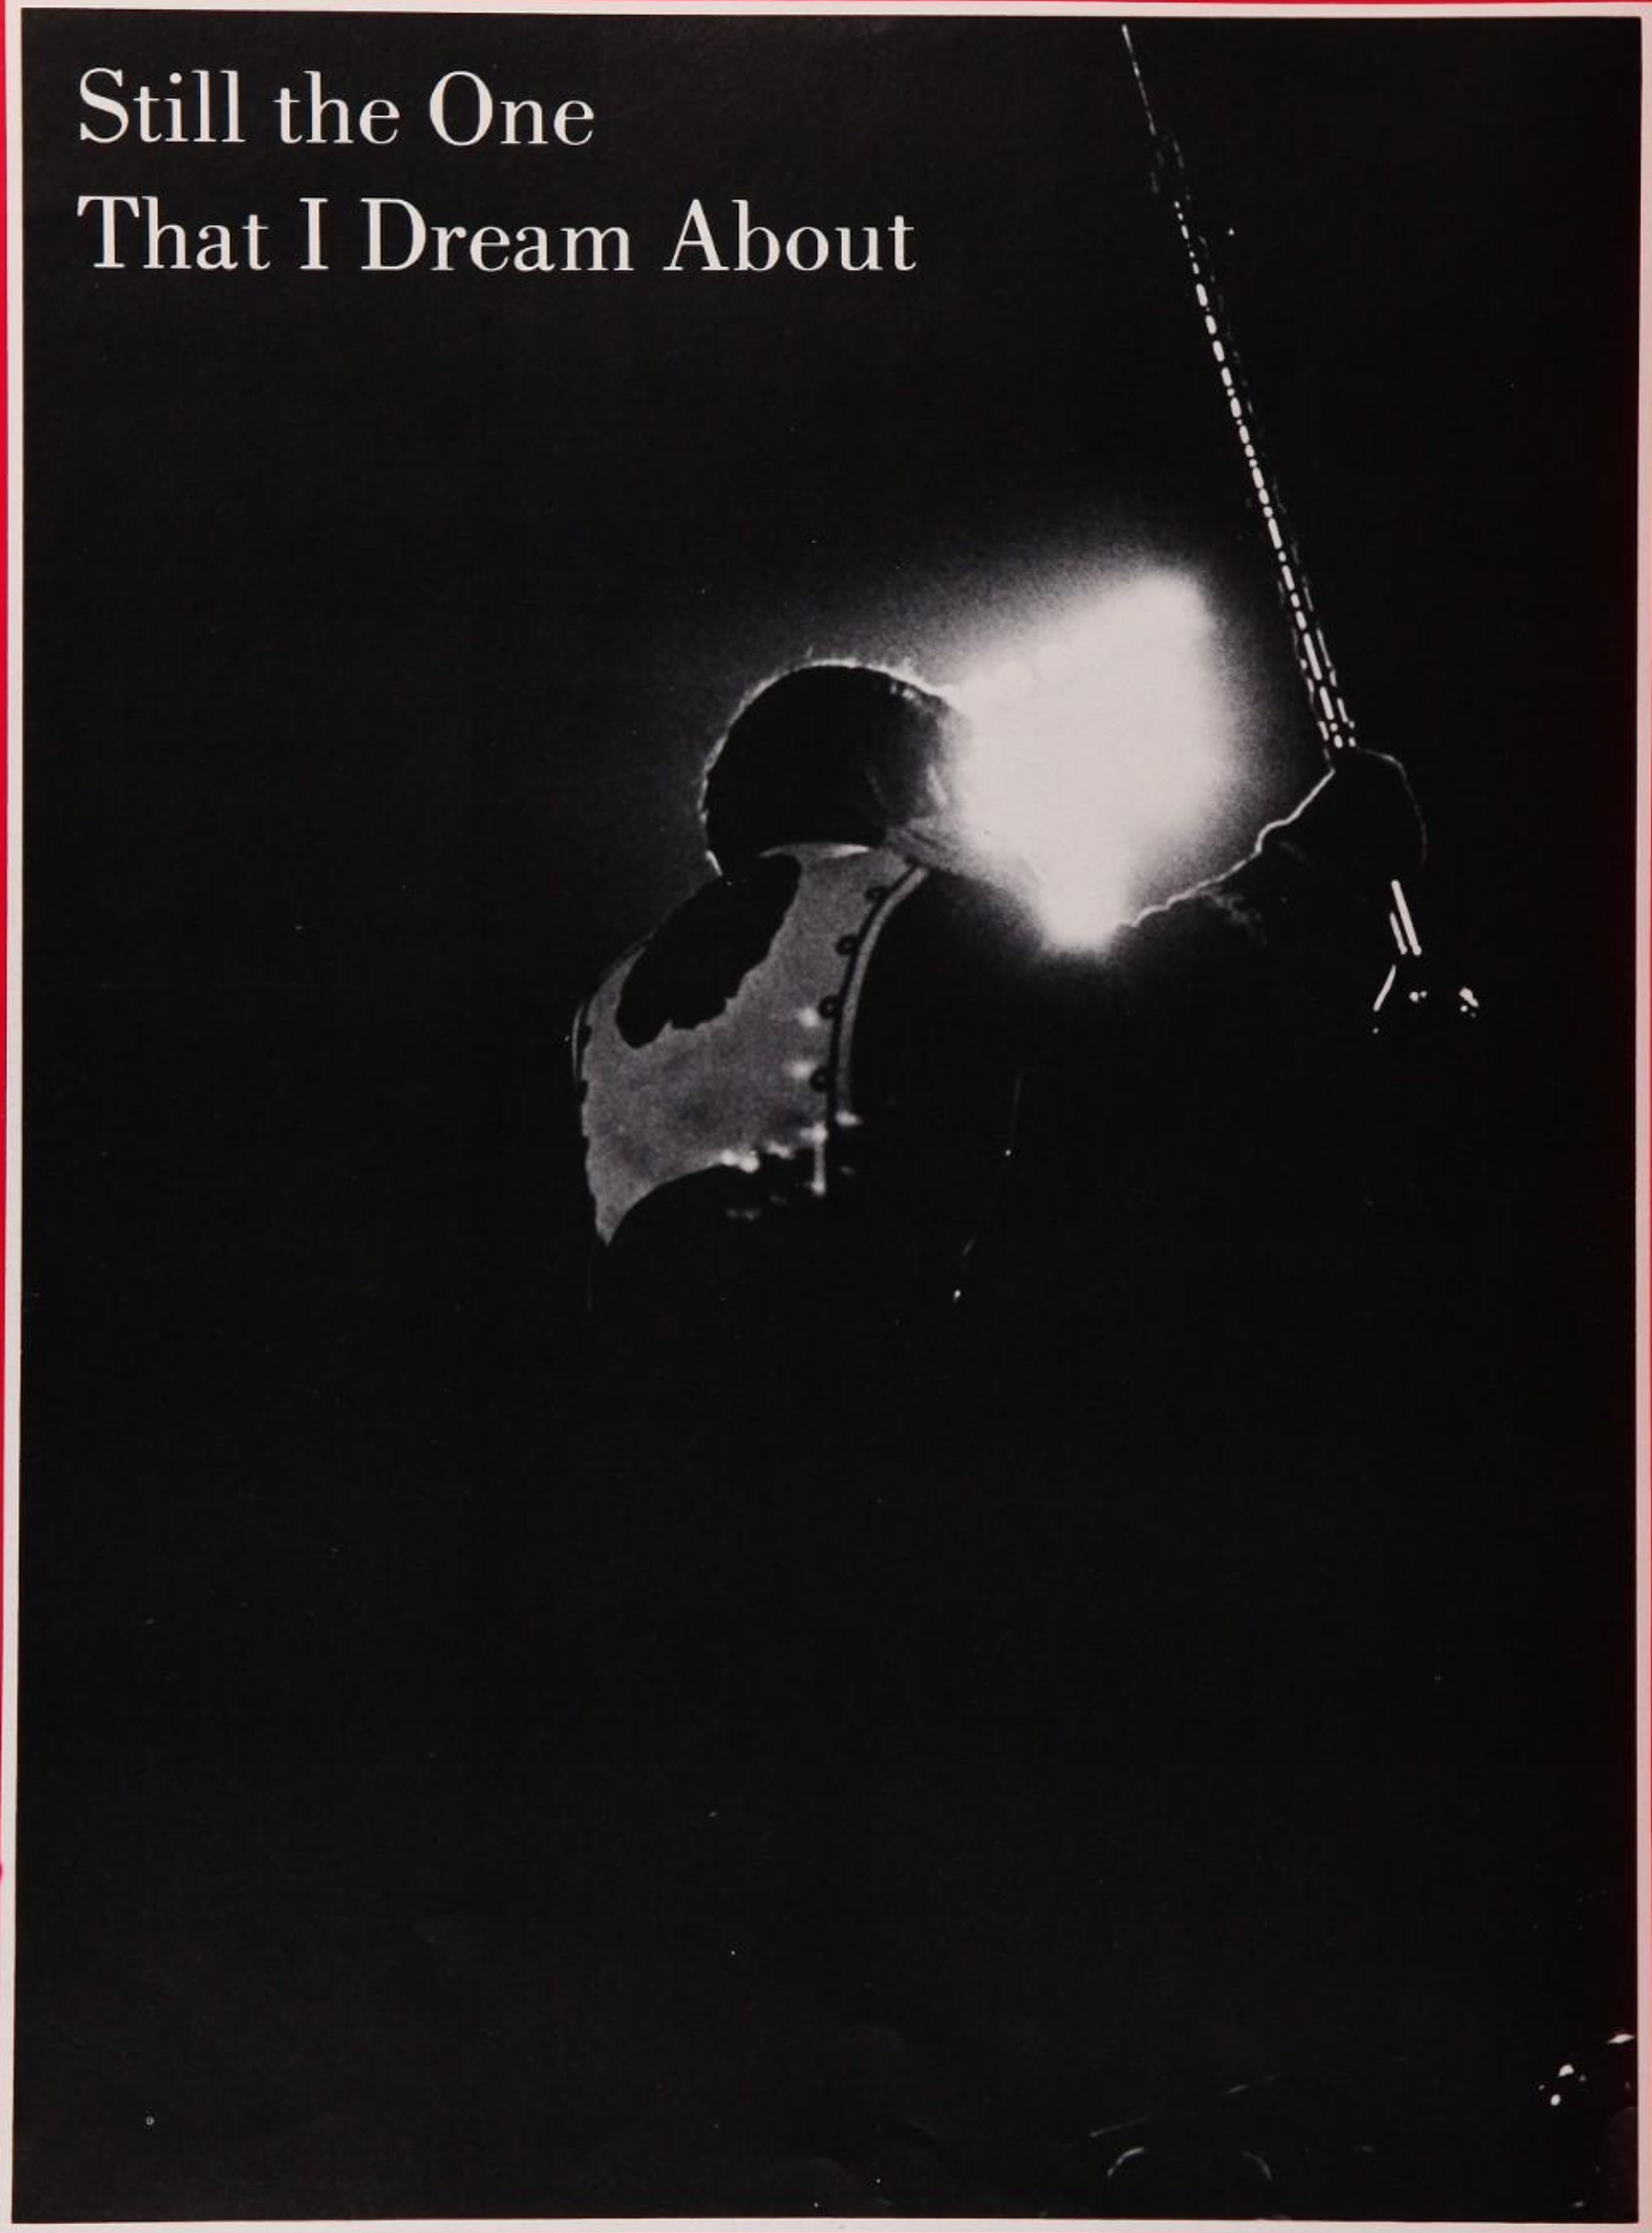
Still the One That Turns My Head



Still the One . . .

. . . and I Wouldn't Switch

Still the One That I Dream About



I Know That Pride Exists,
For I Have Felt It.

I Know That Desperation Exists,
For I Have Wallowed in It.

And Now, I May Add to My
Collection, an Item Called Love.

I Have Found That Love, Too, Exists,
For I Have Found You!

FACULTY

"Teaching is the art of encouraging students to help themselves. It should be attempted with love, patience, and humor."

Norm Erickson

"Teaching at North Central is a real trip! Being an English teacher, I can think of many adjectives I could use to describe my teaching days here on the reservation: scintillating, frustrating, exciting, challenging . . . But I can think of no other place where I, as a teacher, could face each 8:00 morning with the same enthusiasm that I have when I hit room 342 of the NC tepee. Am I proud to be an Indian?? You better believe it!!!

ORGANIZATIONS

To me, school is more than just a place in which one is taught academic skills. The function of the school is to prepare the student to become a functioning and productive element of society.

This society that we are to be parts of, demands more from us than just being able to read or write correctly. Rather, the greatest demand put upon us, as parts of society, is that we be able to cooperate with other members of our society.

School can help a student learn to cooperate and work in conjunction with other people, but it can only do so if the student is willing to put forth an extra effort above and beyond the daily academic requirements.

By offering such things as A.S.B., senior or junior class, athletic or academic activities, the school shapes the individual towards the understanding that whatever he/she does will entail working closely with others. To me, therefore, it is imperitive that each student participate in whatever activity he/she prefers because it is these activities that act as small scale replicas of the society in which we will soon be. It is these activities that give us the opportunity to take the skills we learn in the classroom and apply them to everyday life.

"Competing for North Central always makes the importance of winning greater. When I am in a contest, I am trying my hardest for my school. I have always felt proud to say that I am a part of North Centrl High School, and I will never stop feeling proud."

"Speech tournaments are a lot like other sports in the way that the same funny things happen in your stomach before you have to go out and **do** it. The relief when it's over and behind you is the same too. Also, the feeling that if you only had one more chance, just one more. . ."

In Oral Interpretation, everyone competes individually, but for the same cause. The biggest reward of all for me in a speech tournament is the great feeling that I have tried my best, an even if I didn't win, I was still in there representing the one and only school in the state!!!!"

Christine Marie Sarah Windishar

"When I am performing in something I've never done before, I'm very nervous. When I do something more than once, then I'm not nervous and I get confident. Then, I feel good because you can hear the people cheer and yell. It's fun!"

SPORTS

"By the end of the fall season, we showed Spokane N.C. was Number 1. As a member of the 1977-1978 Football Team, I am truly proud. We showed our younger classmates what it's like to be on top and to be winners. We had started a tradition. I can say it is the total effort of the whole school that made N.C. number 1. Our teams couldn't have done it without the backing that only a North Central Student Body could put out. Be proud to be an Indian and strive to be great, follow the footsteps set by the class of 78!"

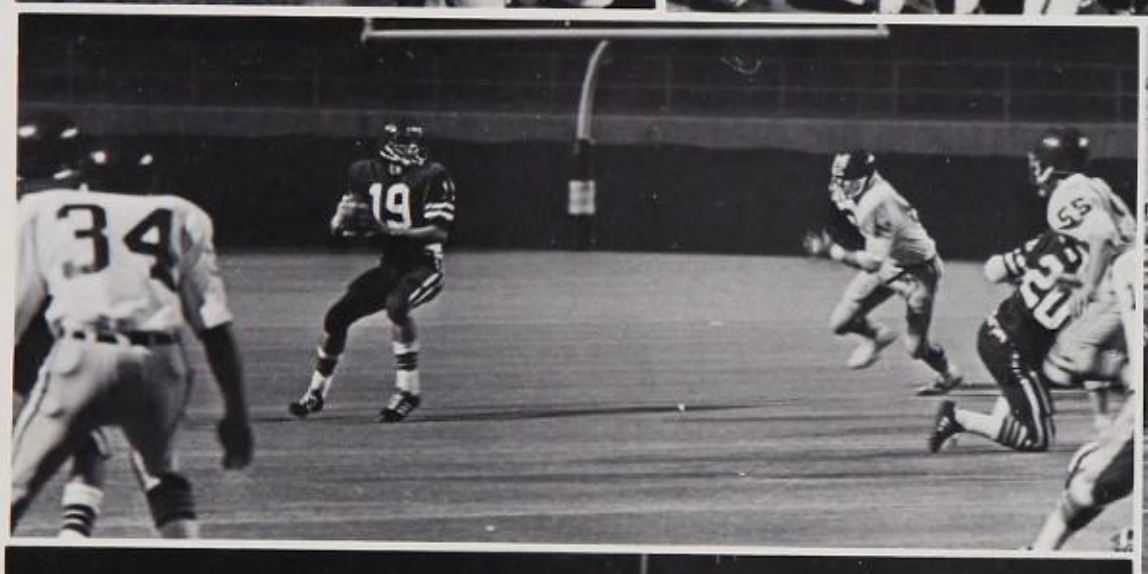
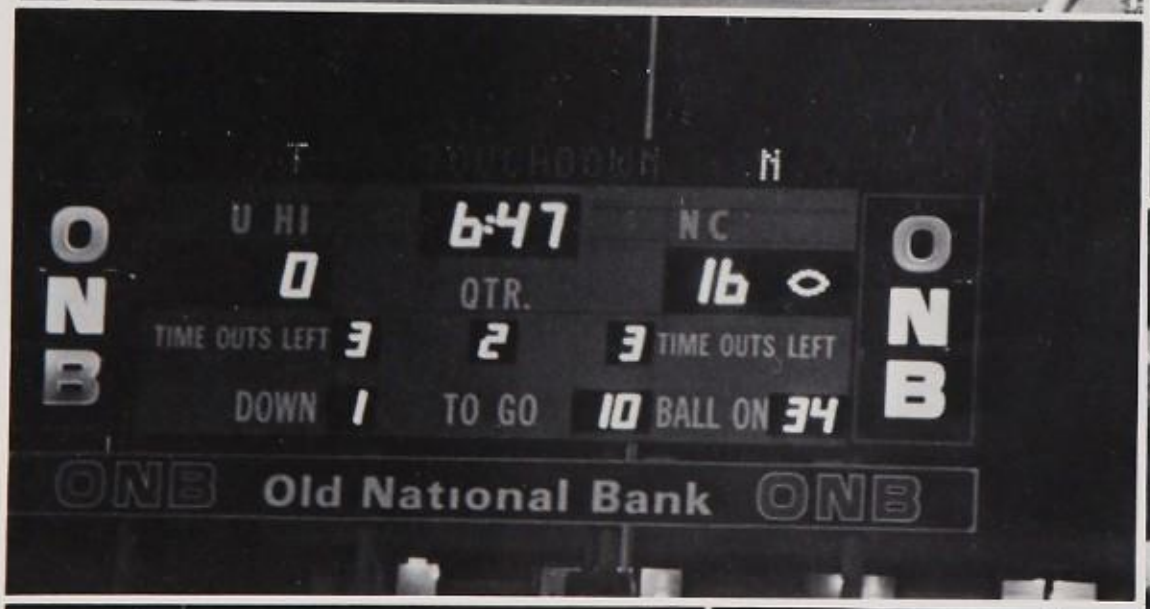
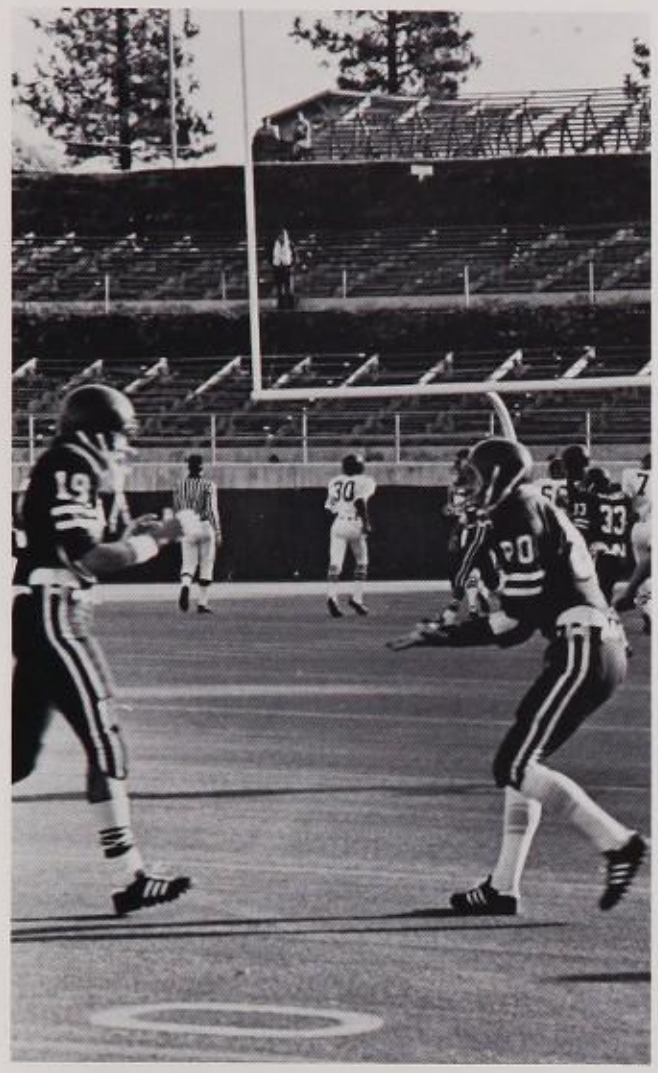
"Pancake Power"





Proves Effective!



The North Central Indians, headed by Coach Art Bauer, had a more successful season this year than in the past 49 years. The last team from the halls of North Central to go through the regular season "undefeated" was in 1928. This year's team scored a total of 230 points while the outstanding defense held opponents to 88 points. The Indians were named "Team of the Week" twice by the Sportswriters and Broadcasters. Ryne Sandberg was selected as the "Outstanding Player" in the Greater Spokane League.

Post season playoffs started out on the right foot when N.C. defeated Eisenhower 13-10 to advance its undefeated streak to 10 games. The next week on a cold and icy field the Indians were beaten by Gonzaga and ended their bid for the state championship.

"My job as coach is easy. I introduce the runners to the running and to the thrills of competition. The runners themselves then run because they enjoy it and want to be one of the fine N.C. runners. If I am doing my job right I never have to check on the runners. They will run because they care about themselves and our N.C. cross country traditions."

SENIORS

"Teachers, administrators, counselors, coaches and friends, as well as your parents, are all creators of you." "It is true that you have become your own person, but without their guidance, you couldn't have become what you are today." They have developed your awareness of life. The awareness is essential to make decisions concerning your future. "Preparing for your future is what s chool is all about, so . . . learn from the people around you, whoever they are. Be greatful to all who have taught you."

Karen Crull
Senior class President

This has been a time
Of finding out who I am,
Finding out what I have to apply and why.
From our relationships
Come knowledge that will stay forever,
Showing me what I am.
I have learned
In loving
And being loved.

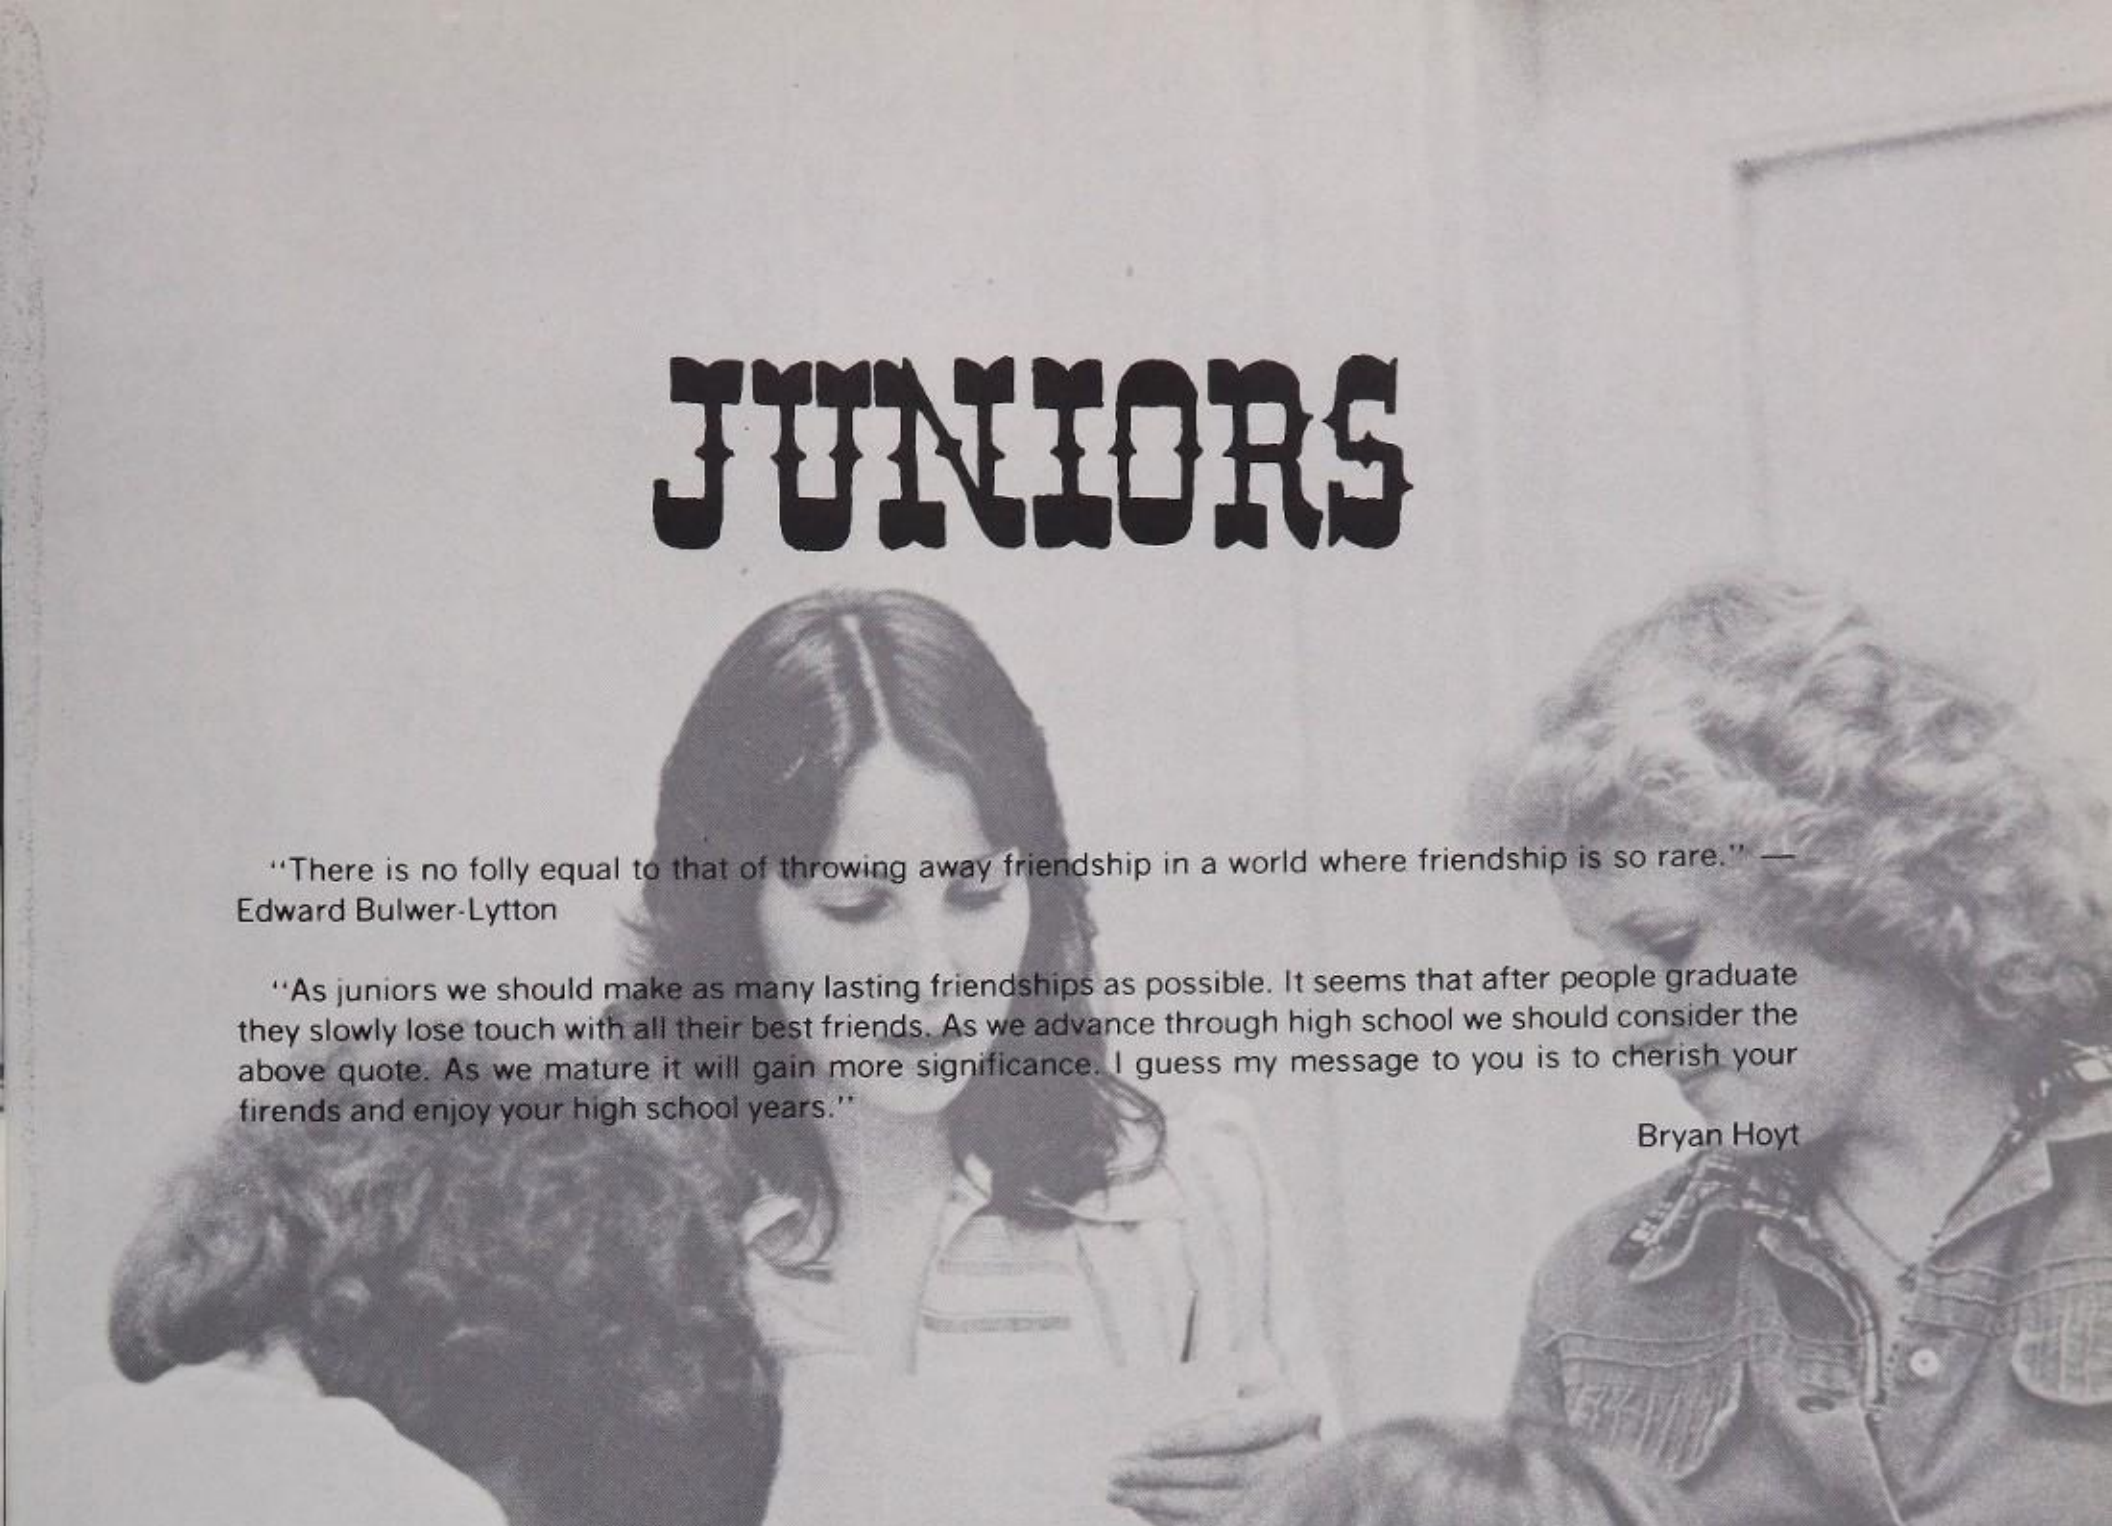
JUNIORS



"There is no folly equal to that of throwing away friendship in a world where friendship is so rare." — Edward Bulwer-Lytton

"As juniors we should make as many lasting friendships as possible. It seems that after people graduate they slowly lose touch with all their best friends. As we advance through high school we should consider the above quote. As we mature it will gain more significance. I guess my message to you is to cherish your firends and enjoy your high school years."

Bryan Hoyt

"Being a junior at North Central is really exciting, since many things happen when we are juniors. We have started to take school more seriously. We start to think about what we'll do after we graduate. We seem to be more mature than we were as spohomores. Those of us working as junior class officers have tried to make money and promote proects. So far, my junior year has been the one I'll remember most at North Central, but I am certain that my senior year will be even better, because the class of '79 is the best ever."

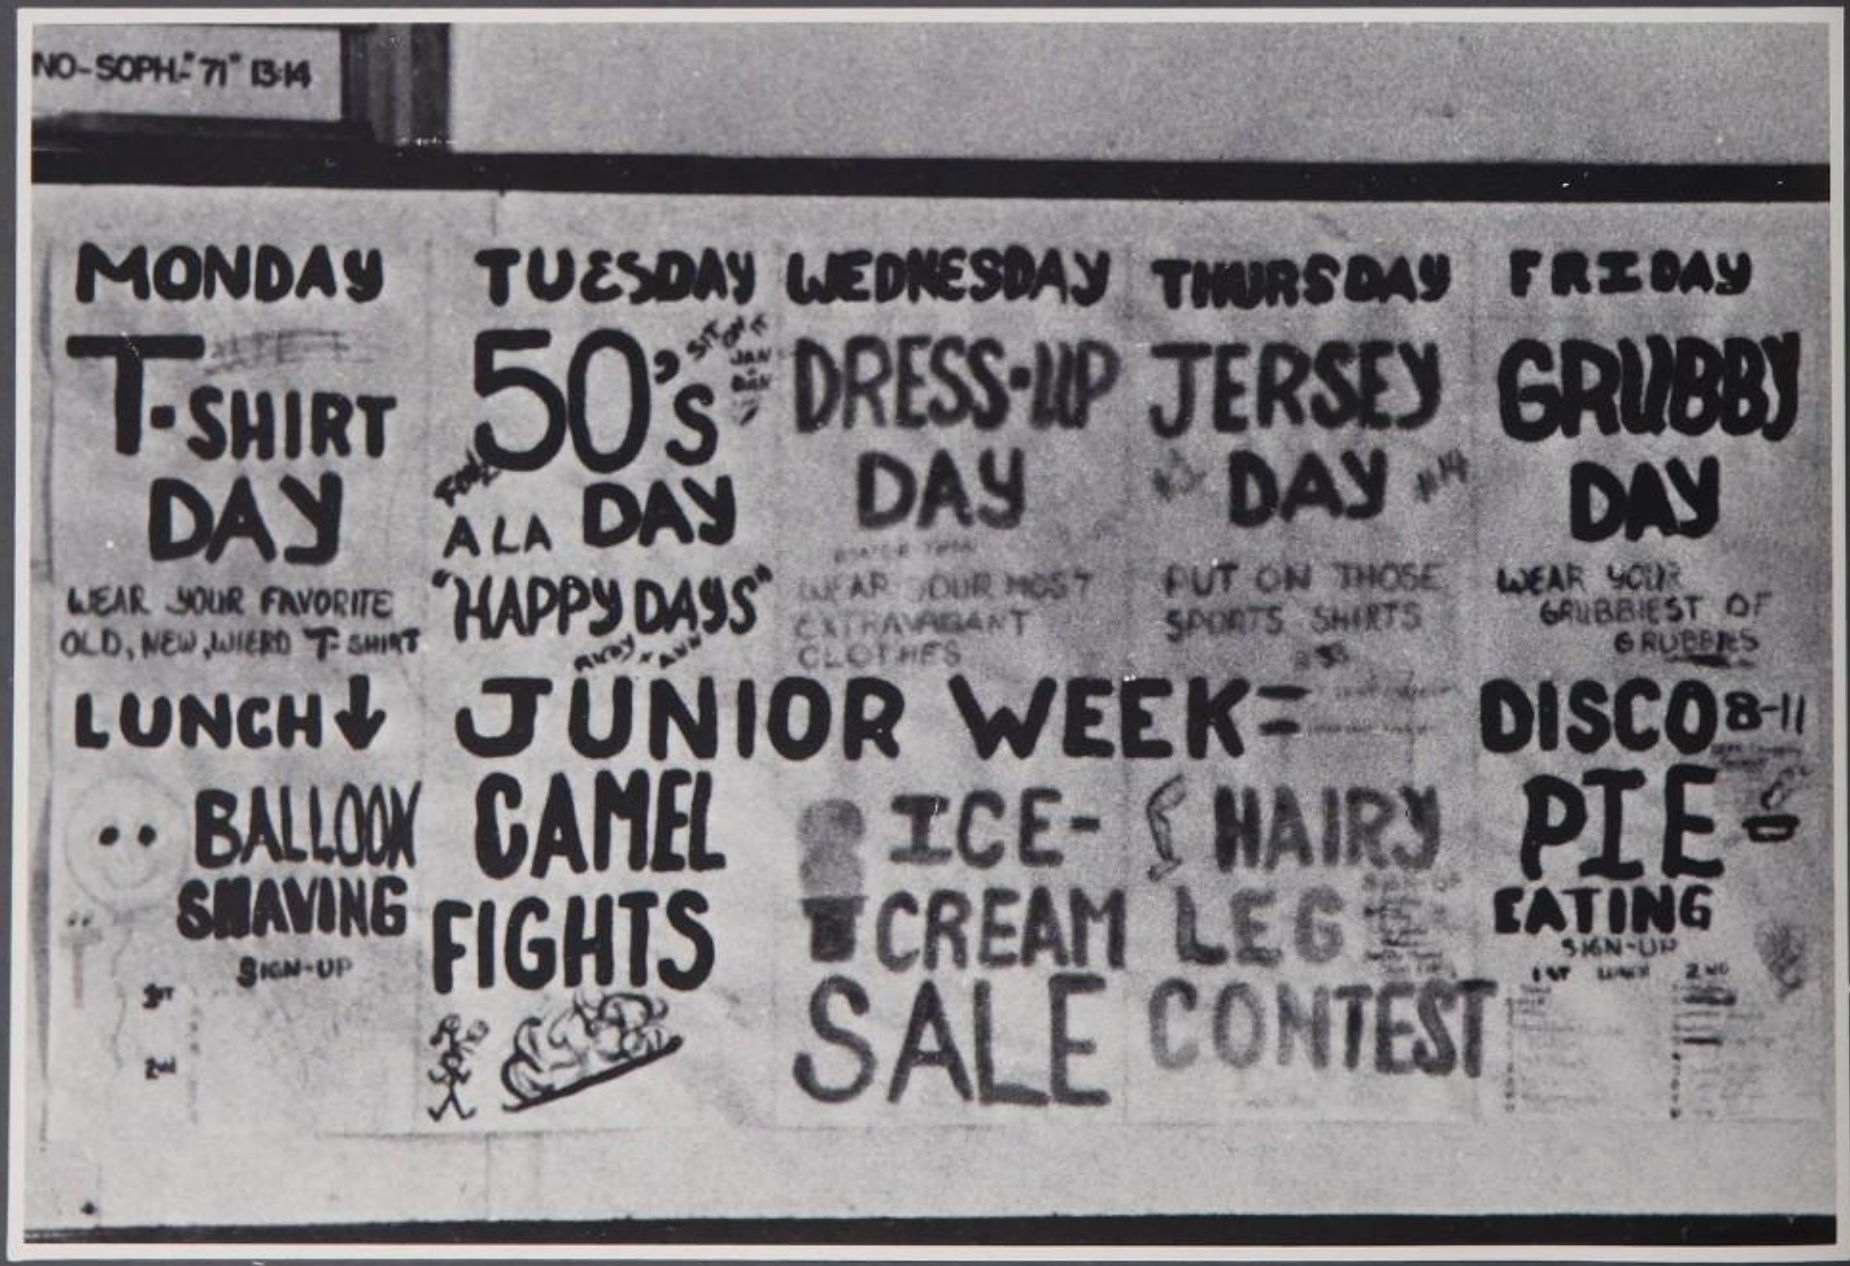
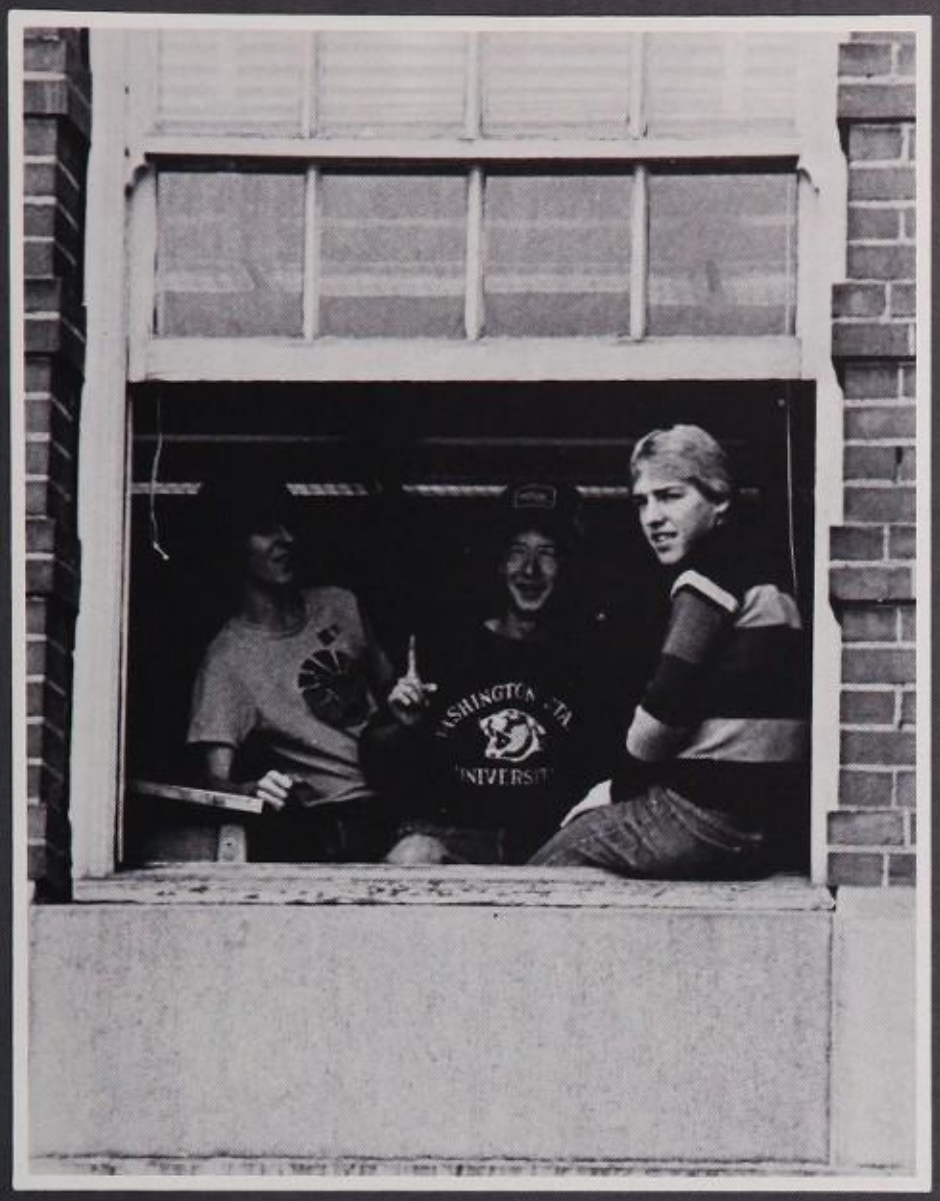
Junior Week '78

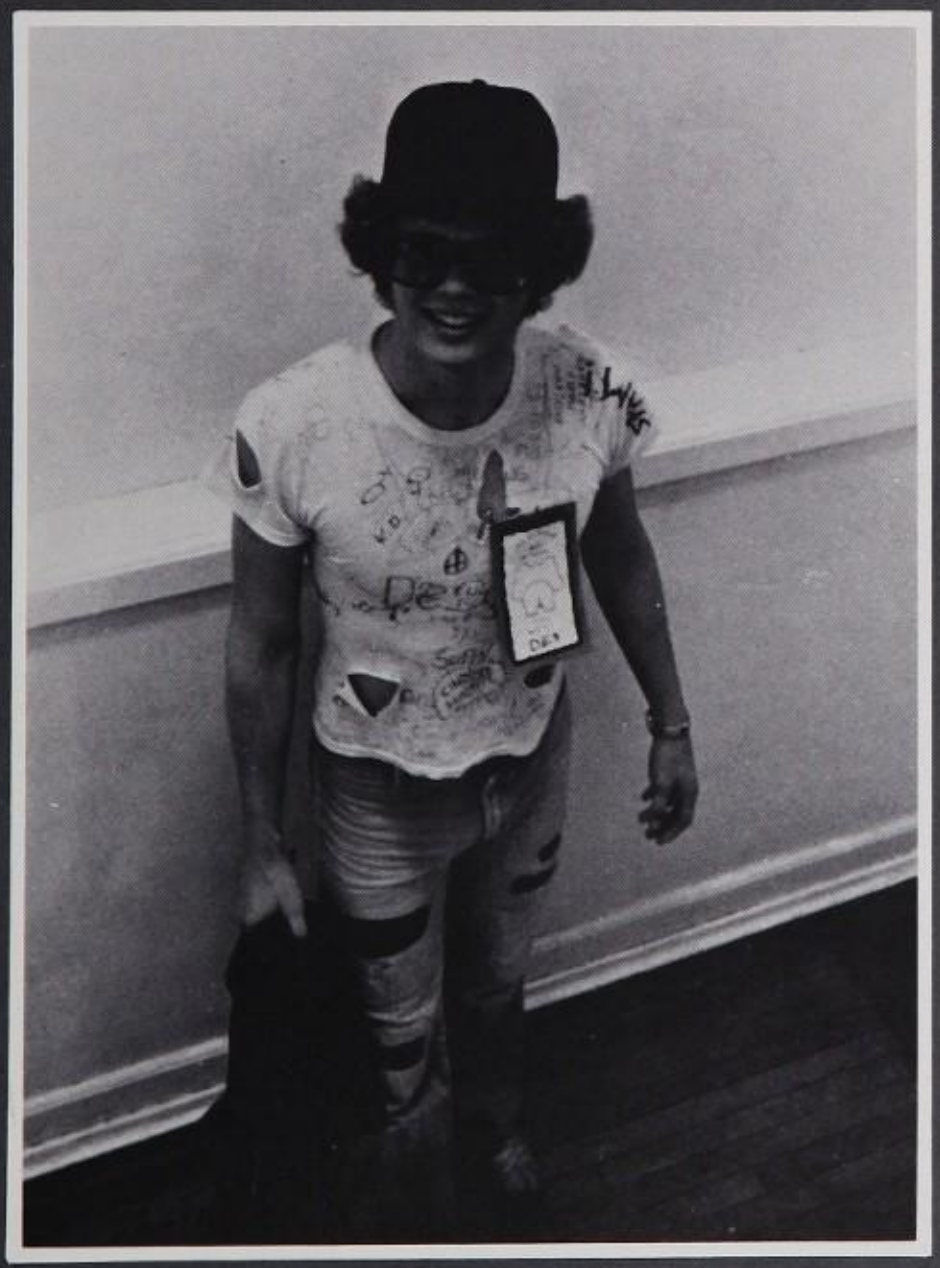
This year Junior Week was March 20-24. The junior class planned many fun events which made the week fun for the whole school.

On Monday, March 28, it was T-shirt day and we had a balloon shaving contest. Tuesday was 50's day and camel fights, while Wednesday was dress up day and the ice-cream sale. Thursday was the day to wear your football jerseys and enter the hairy-leg contest.

On the final day, Friday, it was grubby day and at night we had a disco! Junior week provided fun for the whole school and we made some money for the great class of '79!







SOPHOMORE

"Being a sophomore has its disadvantages and advantages, but I think there are more advantages. The more involved you get, the more fun you have. There are lots of things you can do as a sophomore. Sometimes we just have to work harder.

"The best experience I've had here at North Central is meeting new people. There are so many neat people. It's been great meeting and getting to know them.

"I'm proud to be an Indian and I'm really looking foreard to my next two years at N.C."

Jill Berry

"For me, the sophomore year has been a year of learning and meeting new people. I don't really know what my goals in the future are, but I know one thing — I'm going to be running."

FRESHMAN

"North Central has unique qualities that other schools don't have, such as the cohesiveness within the student body, and a general concern for the well-being of each and every student. Likewise, the students respect the position the teachers hold. As a freshman, I especially noticed these qualities because I was entering a new environment. In terms of activities, North Central has a variety of activities directed at the interests of any student, regardless of his or her background."

Jim "Animal" Ogden

"I felt, as a freshman, that it was a pretty fun year. I didn't get teased like I thought I would for being, as sophomores, juniors, and seniors put it, 'a little frosh.'

"This year I met a lot of people who were very kind and helped in many situations, such as helping me find my classes.

"I really enjoy going to North Central. I am looking forward to the years ahead of me."

A New Future in a New Home for N.C.!

After two unsuccessful tries, it has finally been done! Our thanks to the citizens, concerned parents, North Central alumni, and students of Spokane.

March 14, 1978, a bond issue to rebuild our 70-year-old school was passed.

"Yes, Yes, Yes" was the theme. The voters were faced with three propositions. They were to pass the school levy, to rebuild 14 city grade schools, and to rebuild North Central High School on its present site. They all passed overwhelmingly! To all our kind supporters — "Thanks, Thanks, Thanks." The North Central tradition has only just begun!!!

We're Still the One!
